** ARGENTINA [non]. 9455, Fri Mar 20 at 2255, WRMI with IS & ID loop preceding `top of hour` programming; which at 2300 turns out to be RAE in Portuguese; platforms include radiogarden, and WRMI with no details. then music, one preview topic about Mendoza. I`ll bet it default to dead air at 2330 and another ToH leadin at 2350 (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Fri Mar 20 at 2330, as I predicted in previous report, WRMI relay of RAE cuts to dead air, but not off the air, and re-signs-on from 2350 runup to ToH. I`ve again informed Jeff about this anomaly/mixup which has been happening every day, also disrupting VORW and WOR (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Mar 24 at 2258, WRMI with `Top of Hour` IS & ID; 2300 cut to JIP not RAE, but domestic R. Nacional ID with 8 pm timecheck, talk about stupid ballgames. 2302 show about ``vocación nacional``. Usual VG sig aimed right at us (Glenn Hauser, OK, WOR) See also USA

** ARGENTINA [and non]. 28398 USB, March 24 at 2217, LW3DG quick contact with XE1RIA also audible, in Spanish, then LW3DG calling CQ in English. QRZ.com: ``LW3DG Argentina flag Argentina, Eduardo Gómez, QTH Postcard: Av Dardo Rocha 433 entre 4 y 5 Berazategui, CP: B 1884 Buenos Aires Argentina B 1884, Argentina`` {sic} with a lot about the hassles of QSLing. And:

``XE1RIA Mexico flag Mexico, ADONIS IGLESIAS RODRIGUEZ, P. O. BOX 19-052, D.F. 03901, Mexico`` -- so call = initials in reverse order.

Only few other sigs audible on 10m but unlike yesterday not because of S9 local high line noise level. A few hours after I left a message for the OG&E noise guy, it`s greatly diminished to virtually S0: but I`m afraid that`s coincidental. Still pretty high on LW (Glenn Hauser, OK, WOR)

** BRAZIL. 28450 USB, March 23 at 2213, PY4JW quickly working US stations, QRZ? Only a few phonesigs make it thru the local S9 high local line noise level here. Must get the OG&E guy on it. A quick multi-band scan MHz by MHz on the R75, finds the worst noise peaks on 28, 19, 8 down to 4 MHz. QRZ.com: ``PY4JW Brazil flag Brazil, JÉBER WILKER COLARES, Rua Rio Pardo 244 - Centro, Taiobeiras-MG - Cep 39550-000, Brazil`` page full of certificates and antenna shots (Glenn Hauser, OK, WOR)

** CANADA. 300 MCW kHz, March 19 at 0647 UT, dash and YIV, 500-watt NDB at Island Lake MB.

328 MCW kHz, March 19 at 0649 UT, dash and YTL, 1000 watt NDB at Big Trout Lake ON, mixing with regular PMV 329, Plattsmouth NE (Glenn Hauser, OK, WOR)

** CHINA [non?]. 7500, UT Sat March 21 at 2220, talk in Chinese?, music, S9+10 direct vs noise level of S9+10. 11575, at 2221, S9 sounds the same but not attempted to match //. EiBi shows 7500 at 2200-2230 daily? VOA Mandarin via Philippines, and CNR1/Firedrake jamming at same time M-F only. And 11575 at 2200-2230 only, RFA in Mandarin via PHT, no CNR1/Firedrake jamming. Aoki shows both VOA and nothing about *jamming (Glenn Hauser, OK, WOR)

** CHINA [non]. 13650, March 23 at 2306, CRI ``Portuguese`` music fill via CUBA is missing; apagón aftermath saving the ChiCom some pesos? Doubt it (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 19 at 0635, S9+35 of deadair from RHC, SAWA. 9710, March 19 at 0636, music only S9 and fading, unlike RHC but nothing else listed at this hour (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 19 at 1449, RHC S8/S9 of dead air direct; 15140, March 19 at 1450, S9 of DA with windhowl (Glenn Hauser, OK, WORLD OF RADIO 2339)

** CUBA. 11760, March 21 at 0637, S8 dead air in Spanish from RHC, only here, not 9710. But 5025, March 21 at 0639 S9+40 of dead air in Spanish from R. Rebelde. Precious electricity and the fuel to generate it going totally to waste. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, March 21 at 2214, RHC Spanish, S9+10/20 with windhowl, // clear 11760 at 2217, S9/+10 direct. Shortly after this there was another severe blackout. At 0642 March 22, 5025 is off nor any RHC frequencies found; nor at 1450. By 1929, S7/8 carriers only on 15140, 11880, not 11760, so some power is back on for RHC to waste (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 23 at 1407, RHC not off the air, S9+20 with good modulation during song in English; also weaker 15140 S7/9+5 and not too much windhowl? (Glenn Hauser, OK, WOR)

** CUBA. 11880 & 15140, March 23 at 1858, RHC in Kriyol, about S9+10/15 on both into Georgia SDR, but 15140 is JBM and 11880 slightly overmodulated and distorted. Somethings always wrong at RHC, but tolerable. Instead of cutting to dead air before English can start, keeps modulating! 1859 IS, 1900 English opening previewing contents of first [only] hour: News, Viewpoint, Science/Medical, Culture/Arts. First news item about boats from Yucatán carrying aid for Cuba (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 23 at 2224, RHC dead air with howl now here instead of 15140 earlier in day; while 11880 is S9+10/30 in Spanish, but somewhat undermod with hum. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 24 at 0630, RHC with S9 dead air with some hum; and 11760, S7/9+20 of DA with windhowl. Ho, hum, the incompetence prolongs (Glenn Hauser, OK, WOR)

** CUBA. 11950, March 24 at 2212, RHC Spanish S9+10 with goodmod, while // 11760 is S9/+10 with windhowl. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 25 at 0619, RHC S9+25 somewhat overmodulated in Spanish, along with 9395 WRMI the SSOB by far (Glenn Hauser, OK, WOR)

** CUBA. 5025, March 25 at 0633, R. Rebelde, S9+25 of dead air in Spanish; next check 1355, no trace of a carrier. SAWA (Glenn Hauser, OK, WOR)

** HONDURAS. 28470 USB, March 25 at 2202, HQ9UM, YL op with quick contacts, QRZ? At 2259 now an OM op, says power 900 watts. QRZ.com: ``HQ9UM Honduras flag Honduras, Theodore A "Ted" Krieger, 4593 Tally Ho Trail, BOULDER, CO 80301, USA -- Violetta (KN2P), Ted (N7VZ), and Mark (W7UM) operating from Roatan Island, Honduras (IOTA NA-057). 24 March - 31 March 2026, QRV for CQ WW WPX SSB`` (Glenn Hauser, OK, WOR)

** IRAN [non]. 5890.3, March 22 at 0054, Farsi? presumed Iran International TV via BULGARIA, as previously reported on this splitaway from original 5885, S7/S8. WWCR 5890 not a problem, not on now (Glenn Hauser, OK, WOR)

** MEXICO. 1090, March 22 at 0104 UT, poor S9 of Spanish talk only; no

sign of cheatin` catholix KEXS or anyEng; very likely XEAU, Milenio, Monterrey NL 5/0.5 kW nominally (Glenn Hauser, OK, WOR)

** MEXICO. March 23 0458+ UT, rapid MW bandscan hears warmongering Mexican national anthem on all these, even if only buried in QRM: 590, 610, 690, 730, 900, 940, 1060 now it`s 0500, 1190, 1280, 1570, 1670 kHz. This is 11 pm HCM, i.e. immediately following `La Hora Nacional` on UT Mondays; otherwise NAs more likely to play at local midnight, which is 0600 UT except Texas border cities forced to observe American CDT = 0500 UT. Identity obvious in most cases from major stations, but what about: ?

590, XEPH in CDMX is biggest 25/10 kW, while closest XEFD Rio Bravo does not NA per IRCA Mexican Log; two others. Immediately following ID is time to snatch IDs. 0503 ``La estación más caliente?`, string of government PSAs, 0504, ``esto es música continua`` - IRCA shows `La Más Caliente` is a slogan of XEPH, a.k.a. Sabrosita.

610, XESORN Saltillo Coah is closest, 4 others

1280, XEAW Monterrey probably, but 4 others

Some other SS were not NAing as I tuned across: 660, 770, 1050.

By 0508 some more SS which may or may not have NAed: 860 lectura, 0510 music.

1090 at 0523 lectura on N/S antenna only and LSB required to avoid KRLD IBOC noise peaking 1093; likely XEAU Monterrey.

1300 at 0525, song; two lowpower Texans are SS:REL, and WNQM Nashville of WWCR has some Spanish. Three Mexicans led by XEP Juárez, 40 kW day power, but night? (Glenn Hauser, OK, WOR)

** MEXICO. See also ARGENTINA [and non] ham

** MONTSERRAT. 28405 USB, March 25 at 2159, quick US contacts; must be some contest. QRZ.com: ``VP2MPN Montserrat flag Montserrat, Corey Landrum, Po Box 28432, Henrico, VA 23228, USA.
Island Hopper Group will be operating from Gingerbread Hill in St Peters Montserrat for CQWW SSB``. The local line noise level on 10m now is up to S6/S7 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, March 22 at 0101, S8/S9 of pirate music. These say it`s Wolverine Radio:
https://www.hfunderground.com/board/index.php/topic,160561.0.html
https://www.hfunderground.com/board/index.php/topic,160563.0.html
but after 0140 or so had changed to WBLU:
https://www.hfunderground.com/board/index.php/topic,160576.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6963 USB, March 22 at 0102, S7/S9 of pirate music. These report it as Mix Radio International:
https://www.hfunderground.com/board/index.php/topic,160571.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475 AM, March 23 at 0452, anti-Christ pirate Station YHWH, S9/+10 direct, thintonations of Josiah easily readable but yawn. Some guys never tire of hearing him, hi (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9025 AM, March 19 at 1844, tuneby hits a few words from JFK on the presidential pirate, before cut off at 1845* (Glenn Hauser, OK, WORLD OF RADIO 2339)

** NORTH AMERICA. 9800 USB, March 24 at 0213, S9+20 of Mix Radio International with heavily produced IDs; tnx to this tip: ``[WOR] Mix Radio International on 9800 USB as of 0200 UTC - This North American pirate's playing electronic and contemporary music up in the 31-meter band tonight. I'm hearing a very good signal via an SDR in Wisconsin. Out here near Seattle where we're still pre-sunset, I'm getting just barely audible music at times. Eric Fetters-Walp, Lake Stevens, Washington USA. My QSL website: https://treehouseswl.mystrikingly.com `` (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed March 25 from 1400 UT, weekly net opened by YL NCS this week, WSHM692, ``Oklahoma --?-- HF test net``, counts 12345 54321, 30 second pause to tune your transmitters. Breanna gives her ham call KM4UJS, otherwise WSHM692, and 1402 starts roll call, each a second time if no answer first time, which the alternate OM NCS does not do. Letters in calls always pronounced fonetikaly, and mentions locations unlike the alternate OM NCS:
WQYW443, Beckham County ESP [or EFT? several with letters like this, not sure of them];
WQZT582, Broken Arrow;
WQSY836, Byng EOC, Jeff ans, no traffic;
WNPV700, Durant ESP, Bill, no traffic, loud & clear;
WQYW883, City of Moore ESP, ans?;
WNUW216, Oklahoma City, Max[?];
WNUW215, Ponca City EOC, VG, Jason answers, tnx for warm welcome last week, L&C;
KNGR728, Pontotoc County EOC, Chad ans; asks if she heard Byng;
WPFY721, Seminole EOC, Ernie ans;
WNBM839, Stillwater, Joe ans;
WNCH624, Tulsa EOC;
WNBE830, Missouri State EOC, Jefferson City, Corey ans;
1408: any others? No, closes net till same time next week;
1409 informal QSO WNBE830 and WPFY721;
1410 Wild Bill in Durant contacts Ernie in Seminole, about weather, housing, Silo school district, millage rate; WNPV700 slips and gives his? ham call NR5X? unfonetik, before closing at 1415. But that is someone else in Caddo (Glenn Hauser, OK, WOR)

** OKLAHOMA. 90.1, March 22 at 1520 UT on KUCO webcast, amid `Sunday Baroque`, IDs for 90.1 KUCO but also the two satellites it sold off a year ago to gospel huxters, KBCW 91.9 McAlester and KCSC 95.9 Woodward. Playback of entire program from back then? WTFDA FMDB shows 91.9 call now KJAL, but still as relay of classical KUCO --- NOT! And 95.9 as KJAR, ditto! Radio-locator.com shows owner of 91.9 is now The Christian Center Inc., unknown! format. But it still has 95.9 as KCSC relaying KUCO! Broad search on owner name leads to KJRF Lawton, `King Jesus Reigns Forever`, on 91.1, which is the flagship no doubt relayed by the others; none of which I have heard, nor care to. KJAL & KJAR slogans now no doubt King Jesus + something; ideas? Website of KJRF but nothing about the others?
https://lawtonchristiancenter.org/our-radio-station
Broad search also leads to a listing for KJAL 91.9 at rabbitears.info - I did not realize that covers FM as well as TV:
https://www.rabbitears.info/fmq.php?request=items&call=KJAL&arch=
But not for KJAR (Glenn Hauser, Enid, WOR)

** OKLAHOMA. Sent to KUCO 90.1: ``What is going on? This weekend I have heard several IDs for KUCO/KBCW/KCSC, the relays you disposed of a year ago. Inserted within programs; were you playing back old airchecks? For example, Sunday at 10:20 am {1520 UT} inside Sunday Baroque? Monday 6:33 am {1133 UT} during Concierto, and why was it playing then? Monday at 1:21 am {0621 UT} ending From the Top, NPR, evidently from year 2019, IDs and starting Wind & Rhythm. Why at these hours? And why don`t you include on your program schedule what`s really airing at 12-6 am, especially weekends? Regards, Glenn Hauser,

Enid``

Reply: ``Thank you for your email Glenn. KUCO had a connection failure that links the studios to the tower forcing our station to play backup audio for on-air and streaming. We have since corrected the issue. Best, Jeff Hagy, KUCO General Manager,
University of Central Oklahoma, 100 N University Drive, Edmond, OK 73034, classicalKUCO.org`` (Glenn Hauser, OK, WOR)

** OKLAHOMA. 95.5, March 23 circa 2340 UT, it`s been quite a while since I have driven thru the intersexion of S. Cleveland & W. Owen K. Garriott in Enid, where there has been the focal point of a very weak pirate with rock music. Yes, it`s still there, undermodulated rock and $tereo pilot is on; barely enough to overcome the adjacent 95.7 local and two fringe Okies on 95.5 itself. Never heard any announcements, let alone ID, but never listened for more than a few minutes. Meanwhile no signals around downtown on 93.1 or 95.1 today nor lately (Glenn Hauser, OK, WOR)

** OKLAHOMA. Area tropo is up March 19 at 1500+ UT; besides many channels with BAD signals, these decode. as labeled:
RF20, 19-1, KQCW-HD [Muskogee]
RF21, 40-1, KHBS-DT, ABC [Fort Smith AR; as in last log Nov 15, site is in OK!]
RF22, 23-1, ROAR [KOKI Tulsa]
RF28, 44-1, Ion [KTPX Okmulgee]
RF31, 3-1, OETA DT [KOET Eufaula]
RF34, 41-1, KMYT-TV [My, Tulsa]
RF36, 17-1, TBN HD [KDOR-TV Bartlesville]

At 1525 I explored the sub-channels on RF22:
23-1 ROAR
23-2 MeTV
23-3 Dabl
23-4 Charge!
23-5 Comet
23-6 TheNest
This lineup matches rabbitears.info - KOKI is still the callsign but not displayed, and no longer Fox (Glenn Hauser, Enid, WOR)

** OKLAHOMA. RF 17 and virtual 17, March 19 at 1630 UT as I am flipping thru the DTV channels in a tropo opening from eastern OK, there is something on 17 --- it`s Enid`s only local TV signal which has been gone for months, since at least June 11, multi-channel 3ABN, K17JN-D. It might have been on for a day or two since I last went by ch 17, or coincidentally just now. The current lineup is slightly different than in Rabbitears.info, which finally Xed it out upon my reminder, but now it may be un-Xed. Here`s what I am getting:
17-11, 3ABN Radio74, audio only
17-10, 3ABN-MR Music channel, audio only
17-9, 3ABN-RL [Spanish], audio only
17-7, 3ABN-RD
17-6, 3ABN-PH Praise Him Music
17-5, 3ABN-KD Kids
17-4, 3ABN-ES Latin
17-3, 3ABN-DD Dare to Dream
17-2, 3ABN-PR Proclaim
17-1, K17JI-D = main 3ABN, but -JI is really in California!

``Three Angels Broadcasting Network (3ABN) is a 24-hour Christian television and radio network, consisting of ten television channels and five radio channels in English, Spanish, Portuguese, Russian, and French. We are not owned or operated by any person or outside organization, and neither are we funded by any church or denomination, although many of our employees and volunteers are members of the

Seventh-day Adventist Church.`` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. RF 16, Virtual 46, KOCM Norman OK, is only 27 kW ERP, and usually not strong enough to decode thru my antenna, altho its main channel is on coveted low cable channel 6. Gospel huxters. However, when I am getting it direct with a bit of tropo help? I discover 46-3, KOCM-SD which is Daystar Reflections [sic, no x`s here!], showing scenes of nature with locations captioned, and quiet relaxing music, not necessarily religious, with Bible verses - if you ignore those intrusions, it`s quite pleasant. March 24 circa 0500 UT, after watching only a couple hours, I hope I am correct that it`s 24/7 like this? Here`s the full network listing: https://www.rabbitears.info/search.php?request=network_search&network=Daystar+Reflections (Glenn Hauser, Enid, WOR)

** PUERTO RICO. 391 MCW kHz, March 22 at 0648 UT, DDP, 1 kW ND beacon at Dorado airport, San Juan. Checked for in nightly LW bandscans, but usually inaudible. K-index 4.67. G1 storms and the Canadians, even 346 YXL, not audible now (Glenn Hauser, OK, WOR)

** ST LUCIA. 21289 USB, Mar 25 at 2206, J62K, CQ and quick contest contacts. Pauses between the 6 and the 2; so J6 is the prefix, not 62? QRZ.com, with 13 strict rules for QSLing: ``J62K St Lucia flag St Lucia, SLCC Saint Lucia Contest Club, Soufriere, St Lucia`` (Glenn Hauser, OK, WOR)

** SPAIN. 12030 & 9690, Mar 25 at 2256, REE roughly equal good signals direct, but 12030 less noisy even tho it`s aimed away from US, for 2300 token English on Wednesdays; much better than 17715 for S America. The heavily accented M&W intro and 2301 news leading with PM Sánchez expressing opposition to Drumpf`s war on Iran, likely to lead to negative consequences for Spain. I expect Ken Zichi will report a very detailed log of this hour, so I don`t have to (Glenn Hauser, OK, WOR)

** TAIWAN [non]. 17790 // 15770, March 25 at 2212, R. Taiwán Internacional via WRMIs, equally VG S9+20/30 and S9+20, after contact info, `Taiwán en 360 Grados`, interviewing visiting alcalde de Belmopán, Belice (Glenn Hauser, OK, WOR)

** TURKEY. 5960, March 20 at 2300 past 2310, NO signal into UTwente from VOT English; maybe still on preceding 9610 for 2130-2230 English? Something else is there with music at 2303; only CNR8 in Mongolian listed. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 5960, March 21 at 2320, VOT not off the air, S9+15/35 into UTwente with multi-lingual ID filler reel, presumably during English. In A26, this moves to 2200 on 11785 (Glenn Hauser, OK, WOR)

** TURKEY. 9660.007+, Sun Mar 22 at 1738 tune-in via UTwente, VOT S9+20/30 already starting `Letterbox`, Cemre with Eid greetings, previews mail from USA, China, Malaysia, Japan, India. 1) George ---?, KR4BSQ {= Joel S Thomas per QRZ.com}, Frankfort KY, heard 6125 22 Jan at 0430. 2) Mr Jan Hang Chang ??? names seemed to rhyme, Suzhou, China, heard 11720 via UTwente, with Firedrake QRM at 0437; also 17640. 3) Rich? Diolins--?, Connecticut, KC1DET? {someone in Maine, never uttered fonetikaly}, heard 7280, license plate says `The Pizza State`. 4) Mr. Ahn?, Johore Bahru, Malaysia, 17530 in Malay. 5) Mr Sumiyate?, Miyata?, Miyake? at Wakai national park, Shikoku Island, Japan, Hiroshima also, 9660. 6) Mr Nakamura, Kyoto, Japan, likes Islam music, played on ancient instrument. 7) Miss Meh Lin?, Sichuan prov., China, Happy New Year of the Horse, with such stamps on her letter, 17775, not getting QSLs, they will resend. 8) Mr Annan? Bayn?, India, SWL club, 0400 on 6125. 9) Mr Jayanta Chakroborty, India. Notice, his

SWL club has a quiz contest about VOT with prizes; Who is -- somebody with name I can`t copy, and when were they born? 1801 closing, 1803 theme (Glenn Hauser, OK, WOR)

** TURKEY. 5960, March 23 at 2306, VOT is JBA direct, presumably in English. Maybe will be much better from next week on 11785 at 2200 (Glenn Hauser, OK, WOR)

** TURKEY. 5960, March 24 at 2300, VOT probably JBA direct opening English, not off the air but sufficient into UTwente.

5960, March 25 at 2301, NO signal direct, and still no signal at 2338 into UTwente, just Chinese. Something`s always erroneous at Emirler. No 9610 overrun either (Glenn Hauser, OK, WOR)

** U S A. 275 MCW kHz, March 20 at 0619 UT, HIN, 25-watt NDB `wHItNey`, Chadron NE. Seldom heard here; well, first heard exactly one month ago, not since (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, March 19 at 0645 UT, UI, qUIncy IL NDB is JBA mixing with dominant FBY Fairbury NE; sometimes the mixer is TOR in WY, but never? both at once.

305 MCW kHz, March 19 at 0648 UT, RO, 400 watt NDB `Topan`, ROswell NM (Glenn Hauser, OK, WOR)

** U S A. 385 MCW kHz, March 22 at 0645 UT, two JBA NDbeacons mixing, including an O and a W? Very likely the two I have heard before separately, HO HOt Springs AR, and UWL New Castle IN; see my Dec 1, 2025 report (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2338 monitoring: ``9395 UNITED STATES (FL) WRMI at 2330. WoR confirmed, but we weren't able to copy content (too far west here for 31 meters this hour). We confirm WoR bc the one thing that did come thru was recognizable voice of Glenn Hauser. Thinking here the program was better at timezones east of here. --- Noted 3/18 {Wed} (Rick Barton-AZ)``

** U S A [and non]. WORLD OF RADIO 2338 monitoring: confirmed UT Thursday March 19 at 0130 on WRMI 5010, s9+20/30 backwards into Georgia SDR.

Also confirmed Thursday March 19 at 1730.5 on SW Radio Gold, Germany, 3975.001+, S9+10 into UTwente; and 6160 is not on.

Also confirmed Thursday March 19 at 2330 on WRMI 5950, sufficient into portable ATS-909; while I am still recording the next WOR 2339.

WORLD OF RADIO 2339 contents: (Armenia), (Bulgaria), Chile, Cuba, (France), (Germany), Greece, Iran and non, Israel, *Japan and non, Korea North non, (Kuwait), Madagascar, Malaysia, (Monaco non), Nigeria, North America, (Oman), (Philippines), *Romania, Samoa, Scotland non, (South Africa), Sweden, (Taiwan), (Tajikistan), Tibet, *Turkey, UK and non, USA; propagation outlook - (countries mentioned along with others not in order) - *with A26 English schedules [please disregard any unavoidable glitches]

2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

WORLD OF RADIO 2339 monitoring: confirmed Saturday March 21 at 1700 on WRN via WRMI 9395, S6 into Maryland SDR.

Also confirmed Saturday March 21 at 1700 on WRN via WRMI 7730, S8 into Miramar FL SDR, groundwave?

Not confirmed Sat Mar 21 circa 1930 on WA0RCR, 1860 AM, MO as none of the closest SDRs are getting any daytime signal.

Confirmed Saturday March 21 at 2034 the 2030 on SW Radio Gold, Germany, 3975, fair into recommended Barney SDR in Bedford UK.

Also confirmed Saturday March 21 after 2030 on WRN North America stream.

Also confirmed Saturday March 21 after 2030 on WRN via WRMI 9395, S7/S9 into Maryland SDR; and repeated immediately at 2100 on 9395 not from WRN, but at 2100 also on WRN Europe stream. And no longer rerepeated at 2200.

Also confirmed Saturday March 21 at 2236 the 2230 on WRMI 15770, S8/S9 into Maryland SDR, but 17790 JBA.

Also confirmed Saturday March 21 at 2237 the 2230 on WRMI 17790, S3/S4 into southern Alberta SDR, S9 into CDMX, byt JBA into Chile, and VP S3/S4 into Brasila.

Sat Mar 21 at 2335, WRMI 9455 with gospel huxter instead of deadair, so maybe the anomaly has been fixed allowing WOR to be heard again Sundays at 2330; full hour of Argentina relay on MTTF, VORW on Wed.

Also confirmed UT Sunday March 22 at 0030 on IPAR/IBA/IRRS/etc. webcast only.

Also confirmed UT Sunday March 22 at 0244 the 0230 on WRN N America stream.

Also confirmed UT Sunday March 22 from 0407 the 0315v on WA0RCR, 1860 AM, Wentzville MO, S7/S8 into N9AZZ Cartersville IL remote. As often, the Houston HamSat playback started way late not at nominal 0200 but 0257 UT, and then the quarter-hour ARRL news about 0352.

Unfortunately awake at 0730 UT Sunday March 22 so checked WRMIs: 5950 off; confirmed on 5850, 7570 S9+30, 7730 S9 JBA, 7780 S9+15/20.

Fortunately asleep at 1030 & 1130 so no check of those. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2300 UT Monday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW [has been dead air];
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160?;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2339 monitoring: confirmed Sunday March 22 at 2000 on IRRS SW via AM Italia, 1322.997, S7 and noisy into UTwente.

Also confirmed Sunday March 22 at 2100 on WRN Europe stream.

Also confirmed Sunday March 22 at 2235 the 2230 on SW Radio Gold, Germany, 3975, JBA S8 into recommended Bedford UK SDR.

Also confirmed Sunday March 22 at 2300 on WRMI 9395, S9+5/10 into Nashville SDR.

Also confirmed Sunday March 22 at 2330 on WRMI 9455, S9+10/25, this airing restored instead of dead air past two weeks.

Also confirmed UT Monday March 23 at 0030 on WRMI 7780, S7/S9 into S Texas SDR.

Also confirmed UT Monday March 23 at 0300 on Area 51 webcast only, just as WBCQ 5130 starts to sign off after `WDCD` show. Next:

2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160?;

2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2339 monitoring: confirmed UT Tuesday March 24 at 0330 on WRMI 7780, VG S9+10 into S Texas SDR. Once again a preceding talk program cut off abruptly at 0330; I have no idea what it be. Need to check at 0300.

Also confirmed Tuesday March 24 at 1300 on WRMI 9955, S7/S9.

Also confirmed Tuesday March 24 at 1400 on WRMI 9955, by now degraded to S5/S6. Next:

2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160?;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2339 monitoring: confirmed Tuesday March 24 at 2100 on IRRS SW via AM Italia, 1322.996, S9 into nearby Noale SDR.

Also confirmed UT Wednesday March 25 at 0030 on WRMI 9395, S9+30 into Georgia SDR.

Also confirmed UT Wednesday March 25 from 0031 on SW Radio Gold, Germany, 3975.002, S2/S3 JBA into Carlow, Ireland SDR, not into UTwente.

Also confirmed Wednesday March 25 at 2031 on SW Radio Gold, Germany, 3975.001–, S9+5/10 into UTwente.

Also confirmed Wednesday March 25 at 2101 on WBCQ 7490 –80 Hz = 7489.920, S8/9+5 into NH SDR.

Also confirmed Wednesday March 25 at 2330 on WRMI 9395, S9+30 into Georgia SDR. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160?;
2330 UT Thursday WRMI 5950 to NNW.

Many thanks this week to Gerald T Pollard, Raleigh NC, for a generous seasonal check marking Vernal Equinox to Glenn Hauser, PO Box 1684, Enid OK 73702.

One may also contribute via PayPal, not necessarily in US funds, to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. 5085, March 23 at 2140, George McClintock notifies me that this WTWW transmitter is finally back on the air, so unless something else go wrong, WORLD OF RADIO should appear UT Saturday at 0300. Not on the air when I turn on right away, but is at 2200 into Georgia SDR with `Scriptures for America`, S9+35, then cut modulation, so just testing. At 2208 direct, S9+10/20 vs high local noise level. Off at 2303, but sked before fracasal was limited, only from 0100? But still not back on air after 0100 or before 0300 March 24 (Glenn Hauser, OK, WOR)

``Glenn, WTWW 5085 will be up and running this Friday night and your program, if nothing else bad happens --- still finishing repairs and adding a new audio filter to reduce bandwidth. George McClintock 3-24-2026`` (Glenn Hauser, OK, WOR)

** U S A. 9930, March 25 at 1842, WTWW is unusually OFF, no TOMBS. Propagation poor but WWCR 13845 & 12160 still inboom. All would be SSOB. Greenvilles also audible but hardly strongs. 9930 back on at 2030 check (Glenn Hauser, OK, WOR)

** U S A. 5130 -60 Hz = 5129.940, Fri Mar 20 at *2355, this WBCQ cuts on with The Planet IS & ID reel, S9+10/25 into Vermont SDR which WWV says is accurately calibrated; unlike WBCQ; and shortly 6160 -71 Hz = 6159.929 is also on and //, S9+5/20, but I soon notice that 6160 modulation is slightly louder than 5130. 7490 -49 Hz = 7489.951 is wrapping up FKB, and by 0000 UT Sat Mar 21, I switch to webcast, `WTO` theme of `AAAWWW`, first interjexion maybe ``re-up``? Not sure. Later, ``Yes, we are real, we are not Memorex...``. So it`s another non-rerun.

As often, starts fiddling with their microphoniums [sic, he means microphonia], and why doesn`t he get that all set before going on air? Ah, it`s so ``live``. Then on and on about audio processing. Angela sneezes and is blessed at 0008; then I zone out. By 0030 still on same subject. 0038 says trimulcasting on 7, 6 and 5. Names some new programs, Upstream, Servants of God; and unnamed one yet by a guy in Portland ME. Then warns elders to beware of scams, as in latest AARP magazine; AI is a *tool* which can be used for good or evil, but it is increasing ``expeditionally`` [sic] as he says thrice rather than ``exponentially``.

0047 finally music break by Beatles, a tune I do not recognise. 0049 fiddling with mixe again, loose connexion, testing. 0052 situation at the 9330 Superstition = still looking for major client to lease it for 6, 12, 18 or 24hpd; too expensive to operate it for shorter periods; takes 45 minutes to turn it on including 30 minutes to warm up major tube. Does not mention possible Hal Turner this time for 6 hours on Saturdays. Recommends `Le Show` Suns 7 pm ET as Harry Shearer has been with WBCQ since the beginning. 0054 emails: report that CBS Radio News is shutting down. 0059 prayer. At 0100, 7490 goes to rock show, `High Voltage` --- despite websked still showing Hal Turner! and HV nowhen; 6160 pause and s/off despite websked also still showing Hal Turner; 5130 to some other music, despite outdated websked not showing fq at all on UT Sat (Glenn Hauser, OK, WOR)

** U S A. 15770, Mon Mar 23 at 2018, WRMI in Russian, S6/S8. Altho have added some seculars like R. Liberty and WRN clients, this on System G is `E. Bible Fellowship` (Glenn Hauser, OK, WOR)

** U S A. 9455, Mon Mar 23 at 2222, S9/+10 of dead air from WRMI-11 which skedgrid shows xmtr not starting until 2300 with System D. Nor accounted for in any other System program grid. At 2300 starts to play `Joy to the World`, harmonious version with guitar & chorus in English; what? Xmas carols can`t be played in March! 2305 segué to another song. Certainly not RAE relay in Portuguese as still scheduled, nor in Japanese, Chinese or Spanish. What next? (Glenn Hauser, OK, WOR)

** U S A. 9455, March 25 at 2218 and still 2222, WRMI with S9+10 of dead air - or trace of mod? or cross-mod. Not checked after 2230 whether still DA, but at 2255, presumably from usual 2250, the IS&IS loop leading up to resuming programming at top-of-hour, which it does with VORW since this is Wednesday. At 2330 keeps going rather than chopped off like last weeks (Glenn Hauser, OK, WOR) See also ARGENTINA [non]

** U S A. (12160), Sat Mar 21 at 1700 on WWCR-2 webcast, `Talking Machine Show` which is mostly musicking rather than talking, host Phil Patton at 1705 thanks Mr Glenn Hauser for some nice comments about his show in DX Listening Digest - shows you how ancient this tape be - I remember hearing the same shout-out some time ago, probably same episode, never explicitly numbered nor dated (Glenn Hauser, OK, WOR)

** U S A. 15150, March 22 at 1450, WMLK is only S9 in severely degraded propagation, hardly anything else on 15 MHz and higher bands, but 9930 WTWW is still blasting. K-index 6.00 at 1500 after G3 geomag storms (Glenn Hauser, OK, WOR)

** U S A. 7505, March 25 at 0625, WRNO still on, only S6/S7 with JBM music, English (Glenn Hauser, OK, WOR)

** U S A. 1070, March 20 at 1258 UT, sportstalk, WDIA ID in passing, mywdia.com -- it`s U4 50/5 kW in Memphis TN. Night pattern has very tight major lobe southward, very little thisaway toward KNX, but day pattern is oval favoring N/S, yet plenty sideways too. Another bonus from the silence of Wichita. Today`s real sunrise there was 1204 UT, as to be expected on the Vernal close to 90 degrees west; so should be legally on day pattern now (Glenn Hauser, OK, WOR)

** U S A. 1090, March 20 at 0636 UT, L&C RCC talk, call-in discussing Martin Luther, who was hard to get along with, tsk2. This signal is totally unusual; 1090 at night has nothing but weak mixes, but this sounds like a major 50 kW clear-channel station. 0655 closing the show, from EWTN. Yes, as I suspected, its KEXS Excelsior Springs MO [Kansas City], a 10 kW D4 DAYTIMER! With illegal ops like this, who needs SW 15610? Not unusual to hear it just before sunset. Day pattern is ovalish favoring the SW toward Wichita and me from site NE of KC, definitely inside MO:
https://radio-locator.com/cgi-bin/pat?call=KEXS&service=AM&h=D
D4 means it also has a ``critical hours`` power of 4 kW with a different pattern but very similar, anyhow well beyond CH in the nightmiddle. Next check at 1256 UT, also well audible, mentioning Catholic Radio Network. I`ve yet to definitely hear KAAY Little Rock on 1090 since its degradation (Glenn Hauser, OK, WOR)

** U S A. 1330 kHz, March 25 at 2224 UT, routine daytime bandscan notices that KNSS is quite undermodulated compared to neighbor of approx. equal strength S9+10, 1340 KGHM MWC, or anything else; just as it IDs as ``KNSS, Wichita`s #1 talk`` along with FM 98.7 (Glenn Hauser, OK, WOR)

** U S A. 1440, March 23 at 0532 UT, C&W dominating, something new? Then ``Amarillo`s home for independent country music``, ad for Glenrio town on NM border; ``Texas 95-7 KPUR``. Seems the 1440 has been off for quite a while. First noted in MWCircle:

``KPUR Amarillo TX 1440 on air again - From: Bjarne Mjelde Date: Sun, 22 Mar 2026 19:32:17 UTC - Haven't seen any posts in here about it, but according to the FCC info they resumed operations on March 11. Heard here at the KONG-HQ in Arctic Norway with 95.7 liners and mentions of 957kpur.com, likely on day power the last two nights. C&W format. -- From the world's northernmost DX-er, Bjarne Mjelde, Arctic Norway, kongsfjord.no, arcticdx.blogspot.com`` and in IRCA, Paul Walker suggests they turned it on to preserve license, i.e. allowed silent time about to expire, so we`ll hear if it vanish again. It had been off for almost a year. KPUR is U2 5/1 kW, no longer farm/talk/ag format ``all ag all day``; night pattern favors NW/SE put plenty to NE not notched. 100 kW 95.7 is licensed to Claude, which is ESE of Amarillo on US287 on the way to Clarendon (Glenn Hauser, OK, WOR)

** U S A. 1440 kHz, KPUR Amarillo: more about that as in previous log,

from radio-locator.com about its FM side: ``Claude, Texas, "Texas 95.7 the Armadillo", Station Format: Country, tell me about "Country" stations, find more Country stations. https://www.957kpur.com/ :website``

Note: may well be the only station formerly named for an armadillo -- or was that a typo for Amarillo?! WTFDA FMDB finds none in the Slogan field. BTW, we have a resident armadillo on our property; need to ask if s/he be familiar with KPUR. See:

https://www.nwf.org/Magazines/National-Wildlife/2019/April-May/Animals/Armadillos
https://nickfinder.com/Armadillo
https://fulcharmnames.com/funny-names-for-armadillos/
(Glenn Hauser, OK, WOR)

** U S A. Huge tropo blob from TX to FL and rather far inland on the DXMAP, but Enid is on the edge, March 21 at 1459 UT. DTV bandscan hits numerous `bad` or `NO` signals on open channels, but one decodes well: RF 26, KTALDT 6-1. Yes, no hyphen in the call displayed. NBC programming. That`s Shreveport LA, the station with a ``tall`` antenna. I don`t get any 6-2 or further subchannels. Holds up until 1515, and occasionally pops in during next semihour. Distance from Vivian LA site to Enid is 529 km = 329 miles. Some closer signals from Tulsa, Eufaula, Fort Smith also in, and some OKC signals became BAD presumably because of DX QRM (Glenn Hauser, OK, WOR)

** U S A. Re KTALDT 6-1, RF26 Shreveport DTVDX, as rabbitears.info reminds us, community of license is Texarkana TX - not AR - not that it matters, but operates out of Shreveport LA, market sharing, and site in LA (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Mar 21 at 0631, R. Vanuatu, island music S6/S8 better than usual direct (Glenn Hauser, OK, WOR)

** VANUATU. 9960, March 23 at 0517, JBA carrier, presmed RV here instead of 7260 yet; by 0653, S5/S7 music on 7260 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 969.935 approx., March 20 at 0652 UT, low audible het against 970.00 signals. Yes, the TV set is off, so this may be real, but nothing that far off in mwoffsets (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1190, March 19 at 0706 UT, ``La Ke Buena`` and an FM frequency ending in .5 - can`t find any match with US or Mexicans by that slogan at all, alternatively spelt Que Buena. But the usual most likely XEs are XEPZ Juárez or XECT Monterrey (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4810, March 23 at 0456 carrier but can`t pull any modulation even by LSB tuning to avoid Martinique uteblob. Presumably R. Logos, Chazuta, Perú, only thing in Aoki but 0900-2330/2400; rather in EiBi at 0815-1500 & 2100-0300 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4850, March 23 at 0458, JBA carrier. Maybe Europirate? Nothing listed now, and around noon in Xinjiang but which is JB audible 5/6 hours earlier when Kazakhing (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9695, March 24 at 0214, classical music, as first reported by John Figliozzi, presumably still in Florida: ``9695 - Classical music from an as yet undetermined and unlisted station (China via Cuba perhaps?)`` - surely not, but I hear more of it at 0629, S5. Nothing at all listed at these times in Aoki, EiBi - could it be a new A26 operation jumping the gun? Nothing there either nor in B25 (Glenn Hauser, OK, WOR) {not there the next night}
